Challenges

Communication

Created Slack to improve communication with Sponsor instead of emailing.

Project Requirements:

What it is our sponsor wanted. Hard to identify the only main issue was databases not connecting. To counteract this, we asked for screenshots of all the systems and created the database.

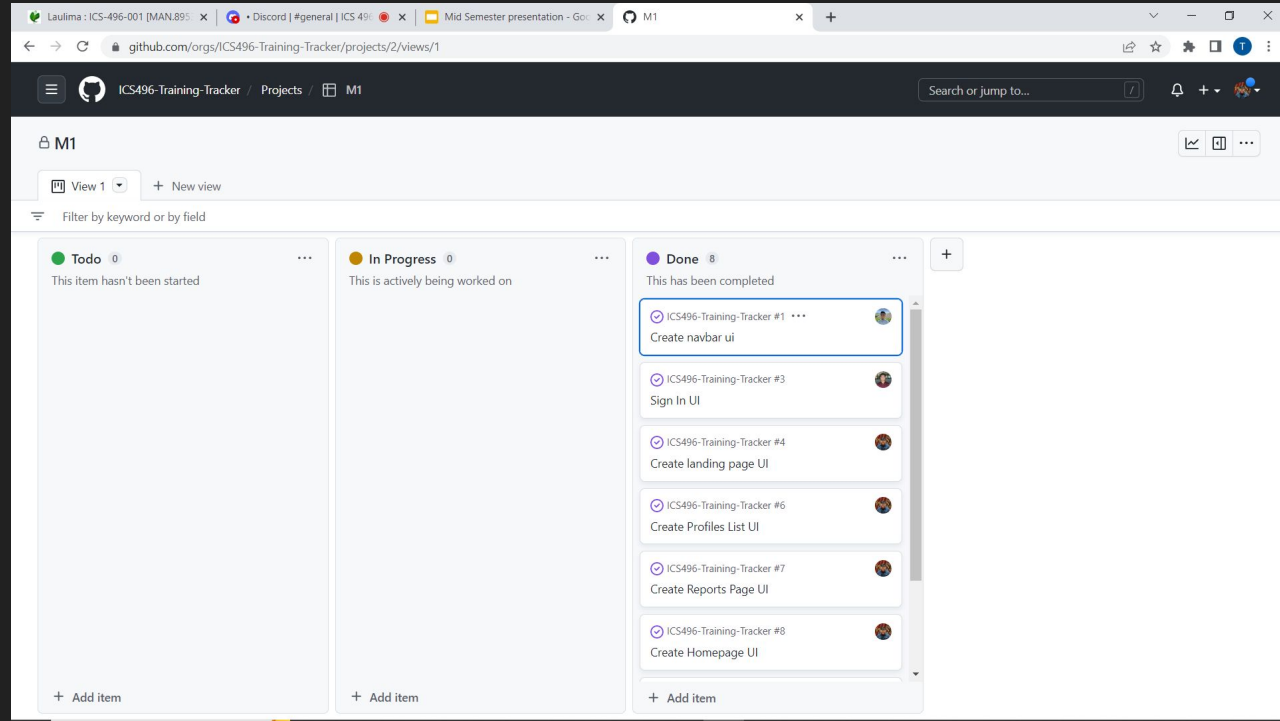

Project Management

Github:

<input checked="" type="checkbox"/> Create MyTraining collection	#14 opened 3 weeks ago by tkansaki					

Milestones

- M1-Complete
 - Focus on UI

Milestones

- M2-In progress
 - Focus on API

The screenshot shows a web browser window with multiple tabs. The active tab is 'M2' at the URL 'github.com/orgs/ICS496-Training-Tracker/projects/3'. The page displays a project named 'M2' with a Kanban board. The board has three columns: 'Todo' (0 items), 'In Progress' (3 items), and 'Done' (0 items). The 'In Progress' column is currently selected. It contains three items, each with a circular progress indicator and a description: 'ICS496-Training-Tracker #12: Create MyLearning collection', 'ICS496-Training-Tracker #14: Create MyTraining collection', and 'ICS496-Training-Tracker #18: Remove Stuff Collection and all references to Stuff'. The 'In Progress' column also has a sub-header 'This is actively being worked on'. The 'Done' column has a sub-header 'This has been completed'. The 'Todo' column has a sub-header 'This item hasn't been started'. At the bottom of each column is a '+ Add item' button. The browser's address bar shows the URL 'github.com/orgs/ICS496-Training-Tracker/projects/3'.

Milestones

- M3-Not yet started
 - Testing and Bug Fixes

Next Steps

- Finish up M2
- Start M3-Testing phase
- Deploy Demo app on digitalocean
- Allow sponsor of interact with the app and give feedback
- Use sponsor feedback to improve app to her liking
- Update and fix bugs as necessary
